<b>Document for:</b>	<b>Information</b>

Following the first meeting of the PSPP an ad-hoc group worked with the ETSI graphic designer to develop a logo for PSPP. The evolution of the image of the earth protected by two "hands" has given the logos presented in this document.

This Logo is currently being implemented on a "new-look" web site that is planned for release in March 2001.

For use in promoting the PSPP it is available on the PSPP server:
